

Veldra Belgium NV: Flex Income Plan configuration

Owner	Nadia Bouchama, product specialist Flex Income Plan
Customer contacts	Mark Janssen (payroll manager Benelux), Charlotte Dubois (group HR director Europe)
Live since	2024 (first choice window November 2024, first benefits January 2025)
Last review	03-02-2026, after the choice round for 2026

Version	Date	By	Change
0.9	19-02-2024	Nadia Bouchama	Configuration workshop with Veldra
1.0	30-09-2024	Nadia Bouchama	Final set-up before the first choice window, Innovapay interface
1.1	03-02-2026	Nadia Bouchama	Choice round 2026 results, new option home charging, reviewed and still valid

1. Eligible population

- Bedienden of Veldra Belgium NV (PC 200), office Brussels and distribution centre Laakdal.
- Employees with at least 6 months of service on 1 October of the year before.
- Arbeiders at the distribution centre are not in scope. Veldra will reconsider this after the 2027 wage negotiations.
- Students, flexi-jobbers and employees in their notice period cannot take part.

About 610 employees were eligible for the 2026 round. 71% made at least one choice.

2. Budget

The flexible budget is built from:

Source	Share that can be converted
Eindejaarspremie (13th month, PC 200)	Up to 100%
Extra-legal holiday days above the 20 legal days (Veldra gives 2 company days)	Up to 2 days

The budget is calculated on the gross monthly salary on 1 October. Changes in salary after that date do not change the budget of the running year. The plan is cost neutral for Veldra: the employer cost of each benefit is deducted from the gross budget, including the employer RSZ saved or due.

Budget that is not spent is paid out with the December payroll as eindejaarspremie, as before the plan.

3. Benefit catalogue 2026

Benefit	Conditions	Payroll treatment
Extra holiday days	Max 5 days per year, to be taken before 31 December	Salary continues, days recorded in Protime
Bike lease (including e-bike)	36 months, through the leasing partner, max EUR 5,000 catalogue value	Monthly deduction from the budget, bike allowance for commuting continues
Extra employer contribution group insurance	Within the 80% limit	Yearly contribution in December
PC-privé plan (laptop, tablet, smartphone)	One device per 2 years	Monthly deduction, benefit in kind where applicable
Home charging station	Only for employees with an electric company car	One-off, from 2026
Cash	Remaining budget	Paid as eindejaarspremie in December

Benefits are only offered where the tax and RSZ treatment is supported by the ruling that Veldra obtained for the plan. New options go through Legal knowledge centre Belgium before they are added.

4. Yearly calendar

When	What
1 October	Budget calculated, eligible employees selected
15 October	Budget letters available in mysdworx
1 to 30 November	Choice window in the Flex Income Plan module
10 December	Choices locked and sent to Innovapay
January	First monthly deductions on the payslip
February	Review with Veldra (participation, costs, new options)

5. Payroll interface

- Choices flow from the Flex Income Plan module into Innovapay (Belgium) as one wage code per benefit.
- The payroll team Veldra BE checks the import report before the January run.
- Leavers: remaining budget is settled in the final pay. Benefits already delivered are not reclaimed, except bike lease (buy-out according to the leasing contract).

6. Points of attention

- Extra holiday days must be registered in Protime before the choice window closes, or the planning at the distribution centre does not see them.
- Veldra asks every year to add the mobility budget. Not possible in the plan: the mobility budget is a separate scheme for employees with a company car.
- Questions from employees go to Veldra HR first. SD Worx does not answer employees directly for this plan.
